Most Expensive Handbags

By Owais Kidwai

For Some handbags are merely functional objects that we use to hold our critical everyday items, but for others it's much more than that. it's the way to represent one's wealth, status and power. Let's take a look at the top most expensive handbags.

Mouawad 1001 Night Diamond Purse:

Worth: \$ 3.8 Million

At the top of the most expensive handbags list is none other than Mouawad. The purse took 8800 hours to make and features 4517 different coloured diamonds. The handbag weighs 381.92 carats and has been considered the most valuable handbag in the world by Guinness World Records in 2010.

Hermes Kelly Rose Gold:

Worth: \$ 2 Million

The Luxury brands of Hermes along with jeweler Pierce Hardy collaborated together and created this unique masterpiece making it into the world's most expensive bags. It has been mimicked to resemble crocodile leather and is made up of solid rose gold. Featuring 1160 expensive diamonds, this luxurious and stunning bag is so small making it difficult to even store a pair of glasses in it.

Hermes Ginza Tanaka Birkin Bag:

Worth: \$ 1.4 Million

Another Hermes bag to be made into the most expensive handbags is Ginza Tanaka Birkin. The bag holds 2000 diamonds on its outer layer and has an 8 carat pear shaped centerpiece that can be removed and used as a brooch and a diamond encrusted strap that can also be separated from the purse and worn as a bracelet or necklace

Hermes Chainé'd Ancre Bag:

Worth: \$1.4 Million

Created in 2012 for the "Haute Bijouterie" Collection, jeweler Pierre Hardy spent 2 years working on this stunning masterpiece. The bag indulges 1160 diamonds encrusted chain links to make this bag. Most certainly unique, only three bags were created. This therefore definitely has to be in the world most expensive bags list.

Lana Marks Cleopatra Clutch:

Worth: \$400000

The first on the most expensive handbags list was originally Lana Marks Cleopatra which was meant for A List Celebrities attending the academy awards. The clutch was designed in northern Italy and adorned with jewels such as natural pink and blue diamond's perfectly cut to create that stunning design. Every year a single limited edition of the Cleopatra Clutch is sold by the brand, making its price vary.

Winter warmth

The best season of the year, Winter is just approaching. And to look fashionable is everybody's priority, to find the best durable winter jacket which actually keeps you warm and dry is probably at the top of everyone's shopping list – and if it's not, it should be. Wearing layers and light jackets may get you through the fall, but once the temperatures start to drop and severe winter weather begins, you don't want to be without a heavy-duty piece of outerwear.

A close-up photograph of a hand holding a large, brilliant-cut diamond ring. The hand is positioned with the palm facing upwards, and the ring is held between the thumb and index finger. The background is a solid, deep blue color. The lighting is soft, highlighting the facets of the diamond and the contours of the hand.

Health benefits of exercising in winter

By Kamran Farooq

- Increases Blood flow and circulation to all the arteries and veins – the body has to use and switch on its internal radiator.
- Burns more energy and fat – as more energy is required to heat up the body's core temperature.
- The body's immune system gets better.
- Cooler temperatures than summer for outdoor exercise = less sweat/smell!
- Embracing the outdoors and remembering nature is our friend, not the enemy.
- Reducing the risk of injury for trips – by strengthening the body, using daily workouts.
- Improves cardiovascular system – from breathing in cold, crisp air and using outdoor training workouts.
- Increases mental strength and robustness.
- Improve chances of better workout – because you have to push yourself physically harder to get warmer in the cold.
- Increases chance of enjoying an indoor gym and the benefits of this type of training e.g. weights / TRX/ group classes.

TOP **NETFLIX** SUGGESTIONS OF THE MONTH

By Owais Kidwai

Emily in Paris:

Rating: 4.4

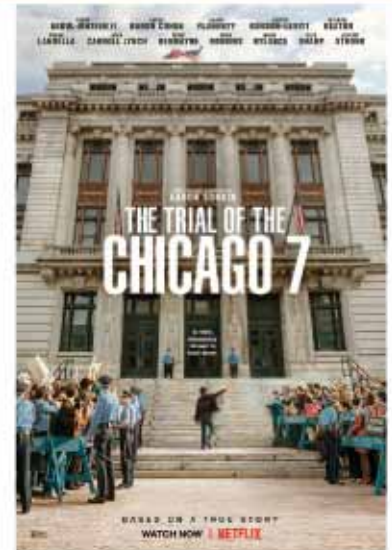

Though it's a depiction of France is tre clich  , Emily in Paris is rom com fantasy at its finest, spectacularly dressed and filled with charming performances.

The haunting of Bly Manor:

Rating: 4

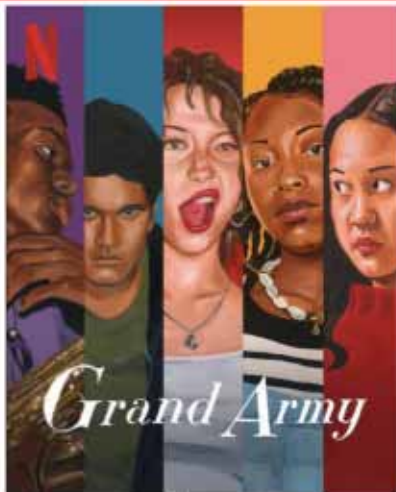

It may not be scary as it predecessor, but with plenty of spooky tricks inside its haunted halls and a strong sense of heart, the haunting of bly manor is another solid entry into Mike Flanagan's growing horrorography

The trial of Chicago 7:

Rating: 4.9

An actors showcase enlivened by its topical fact-based story, trial of the Chicago 7 plays squarely and compellingly to Aaron Sorkin's strengths. It's definitely worth a watching.

Grand Army:

Rating: 4.8

Grand Army tunnels into a generation that's raging and rising. Five students at the largest public high school in Brooklyn take on our chaotic world as they fight to succeed, survive, wild out, break free and seize the future. Its indeed the best series to watch and chill

Away:

Rating: 4.1

Away doesn't reach the stratosphere as a space-time adventure, but emotional earnestness and a strong cast help make this a compelling enough journey to the stars.
